

Message from CEO

Dear Valued Clients,

It has been 7 years since we began operating in Pakistan, and we will continue to be at your side and support you for many years to come.

Here at Advans, we are determined to do everything we can to help you through this crisis. We are working hard on implementing the most effective methods to manage your respective situations.

We are also working closely with the Pakistani authorities, as well as national and international partners to ensure we find the best solutions for you.

Regarding your loan, we will offer adapted solutions to each customer and each situation. Particularly, if you need it, we will make sure to alleviate the burden of your loan repayment by granting you a grace period of 2 months, allowing you to focus on the wellbeing of your family and take care of your loved ones.

Because each client is unique, we adapt our solutions to your needs.

That is why your loan officer has contacted or will contact you in the next few days to discuss the impact of this crisis on your business and the best solutions to guide you through it.

Dear customers, rest assured: we are handling the situation and remaining vigilant.

For the time being, what is most important is to take care of yourself and your loved ones and to comply strictly with the confinement instructions (if your business is not among the “vital sectors”).

Please wait for the call from your loan officer or contact them; if you have an urgent question contact our call centre at 111-238-267.

Guillaume Valence
CEO
